

## PROJECT NAME

# PORT OF PORT FAIRY

## PROJECT CATEGORY

### LOCAL GOVERNMENT

Project Location: Port Fairy

Client: Moyne Shire Council

Date Completed: Schematic Design (2014)

Project Value: To be determined

### Project Description:

This design was prepared for the Moyne Shire Council.

The brief was to develop a number of design options for the construction of a new Restaurant, Fish & Chip Shop and Fresh Fish Shop at the Port of Port Fairy.

The design options will be presented to the community of Port Fairy for discussion and selection.

The building is flexible enough to be extended either horizontally, or vertically, and to allow both shops to be operated by one tenant, or two tenants.

The brief also required the development of an architectural aesthetic which was respectful of the local maritime history, and heritage buildings located in Port Fairy.
